

# HAUNT THE HOUSE

*"This game is great, the art is fantastic, it's super thematic... keep making games like this, please!"*

~ Edo Baraf, Gaming with Edo

*"One of the most thematic family games I've played, and will deliver an eerily great time as you try to out-play and out-scare your opponents."*

~ Derek Funkhouser, Board Game Spotlight

*"It's not dumbed down as a kids game. It's a great family game, kids are smart and their games should be too!!"*

~Tyler Anderson, the Bearded Meeple

**8+** **2-5** **30 min.**

Scare intruders from your haunted house in this game of tricky choices!

Players play Scares "invisibly" to hide their intentions, or "visibly" to trigger the powers of the haunted house.

Each Ghost Hunter fears a particular combo of Scares... but are the right invisible Scares in place? You'll have to BOO to find out!

Manage your hand of Scares and strike the right balance of visible and invisible card play to scare out the Ghost Hunters you want, and fool your friends into shouting BOO at the wrong time!
